SEC. 13.401.B VARIANCES FROM DEVELOPMENT STANDARDS

Approval Standards. The Board of Adjustment may grant a variance under this Section only if the variance is not prohibited by Section 12.401.C, and if the Zoning Board of Adjustment makes a determination in writing that all of the following are demonstrated:

1. The request for the variance is rooted in special conditions of the applicant’s property that do not generally exist on other properties in the same zoning district.

2. Due to said special conditions, the enforcement of the strict terms of these regulations would impose an unnecessary hardship on the applicant.
3. The variance is not contrary to the public interest, in that:

a. It does not allow applicants to impair the application of these regulations for:
   1. Self-imposed hardships;
   2. Hardships based solely on financial considerations, convenience, or inconvenience; or
   3. Conditions that are alleged to be "special" but that are actually common to many properties within the same zoning district.

a. The variance will not have a detrimental impact upon:
   1. The current or future use of adjacent properties for purposes for which they are zoned;
   2. Public infrastructure or services; and
   3. Public health, safety, morals, and general welfare of the community.

4. The degree of variance allowed from these regulations is the least that is necessary to grant relief from the identified unnecessary hardship.

5. The variance shall not be used to circumvent other procedures and standards of these regulations that could be used for the same or comparable effect (e.g., if alternative development patterns, alternative development standards, or other flexible measures in these regulations are available that would avoid or mitigate hardship without using a variance, then they must be used).

6. By granting the variance, the spirit of these regulations is observed and substantial justice is done.

APPEAL FROM DECISION OF BOARD

In accordance with Section 13-901 (I) of the Land Development Regulations, Should the applicant or City be aggrieved by or dissatisfied with the decision of the Zoning Board of Adjustment, the applicant or City may pursue all legal remedies to appeal the decision to a court of competent jurisdiction pursuant to Texas Local Government Code, Chapter 211.

IN ACCORDANCE WITH THE PROVISIONS OF THE AMERICANS WITH DISABILITIES ACT (ADA), PERSONS IN NEED OF A SPECIAL ACCOMMODATION TO PARTICIPATE IN THIS PROCEEDING SHALL, WITHIN THREE (3) DAYS PRIOR TO ANY PROCEEDING, CONTACT THE CITY SECRETARY’S OFFICE, SUITE 201, 823 ROSENBERG, GALVESTON, TEXAS 77550 (409-797-3510).

**Executive Summary:**
The applicant is requesting variances from the Galveston Land Development Regulations regarding Wall Plane Articulation for a proposed Multi-Family Development.

The applicant is proposing to use balconies and curved architectural features to compensate for wall plane articulation. According to the elevation drawings the balconies and curved architectural features are seen on the south, west and east sides of the structure. The west and east elevations also have two 50-foot wide sections of blank wall with no articulation. The Height and Density Development Zone does not require wall plane articulation on the rear which is the north side of this structure. Please reference Exhibit B.
Wall Plane Articulation:

1. Requirements. Wall Plane Articulation shall be not required for the rear elevation unless the rear elevation is adjacent to a rights-of-way or residentially zoned property. Wall Plane Articulation shall only be required for exterior building walls. For example, porches or freestanding, open air structures, such as gazebos, are not required to provide Wall Plane Articulation.

2. Options.
   a. Indented Offsets: Articulation may be provided with indented offsets as shown in Figure G2.
   b. Offset Wall Places: Articulation may be provided with offsets that extend outwards towards the lot line as shown in Figure G3. Please note that the offsets need to meet any setback requirements.
   c. Projected Offsets: Articulation may be provided with alternative designs, such as curved walls, that meet the building wall length and offset requirements set forth in the Wall Plane Articulation table above and subject to approval by the Development Services Director.

Requested Variance for the south, west and east sides:
Wall Plane Articulation from 50-feet to 0-feet.
Offset Length from 10-feet to 0-feet.
Offset depth: from 5-feet to 0-feet.

SEC. 13.401.B VARIANCES FROM DEVELOPMENT STANDARDS

RE: Variance Request - 9010 Seawall

Justification for Request:

While we believe that the Project meets the intent of the Height and Density Development Zone (HDDZ) as a design tool to prescribe higher quality development in Galveston, we respectfully request relief from the wall plane articulation requirement in Building Mass and Form Standards. The narrow and long dimensions of the Seawall frontage site, when coupled with parking requirements creates a hardship in massing the buildings, essentially adding 15' in overall width to the buildings combined.

Section 10.307.C.2.iii of the Land Development regulations states that articulation may be provided with alternative designs, such as curved walls, that meet the building wall length and offset requirements ... The design as presented does articulate with balconies, stair and elevator towers to give visual interest and break up the facades; and the most visible building at Seawall Blvd has been highly articulated with sculptural elements to balance the ship-like character of the larger buildings. This articulation strategy, or definition may not be determined by a formula, or table that is prescribed in the LDR, and therefore request the acceptance of this as an acceptable design strategy.

Please refer to the attached documents. Thank you for your consideration.
