

Example Decision Matrix

Value ↑	Improved Revenue/Cost	Improved material allocations; improved unit cost; over-all efficiency improved	Improved revenue or decrease cost initiatives	High impact improved value and decreased unit cost
	Neutral (no significant change to revenue/cost)	Actions for safety or market driven realities	Generally low priority; except for safety	Increased material handled with decreased unit cost
	Decreased Revenue/Cost	Actions unlikely to be considered	Actions for safety or market driven realities	Increased volumes; some increase in nominal cost
		Decreased recycled tonnage	Neutral - similar recycled tonnage	Increased recycled tonnage
		Impact →
