

FORM-D: OFFERED ITEMS PRICING

Invitation No.: FL03-21

INSTRUCTIONS: Fill in unshaded data fields areas only.

NOTE: Pricing on this document shall be in one of two forms: (1) for catalog / price book line items (subsections A, B, C, D, E), price a % discount off list; (2) for non-catalog line items (i.e. specific models/systems, such as wash systems), price as a specific H-GAC price (\$X). On catalog bids, Offeror shall include a copy of catalog, and if separate, an associated list price document (in printed and electronic formats). Catalog line items below that are submitted by Offeror with a zero-percent discount shall be deemed as non-compliant. The catalog and associated list price book in effect at the time of H-GAC's open bid period shall apply. Offeror shall refer to Section-B for additional requirements. As per Section-B, for vehicle lifts and wash systems, Offeror shall include pricing (on Form-E) for installation and other related services. Per Section-B, all pricing shall be exclusive of delivery charges.

Product Code	Manufacturer	Description	Offeror (for joint bids, insert the company names of all parties. Joint bids must include the required forms (Form-A, W-9, CIQ, 1295, HB89, and CIF) for ALL participants)	Base Unit Price, in Whole Dollars	Discount-Off-List Percentage (use this column for "catalog" line items)
A: Vehicle Lift and Support Equipment					
FL21A01	American Forge & Foundry	The most current catalog along along with associated catalog list pricing (covering mobile lifts, jacks, dollies,stands, and material handlers) (Offeror shall price any other American Forge equipment that falls outside of this category on Form-E)			
FL21A02	ARI-Hetra	The most current, complete catalog along with associated catalog list pricing (covering mobile lifts, scissor lifts, jacks, stands, lifting tables, elevating work platforms, with other associated catalog equipment)			
FL21A03	BendPak	The most current, complete catalog along with associated catalog list pricing (covering 2-post, 4-post, mobile, scissor, parallelogram, etc., with other associated catalog equipment)			
FL21A04	Challenger Lifts	The most current, complete catalog along with associated catalog list pricing (covering 2-post, 4-post, in-ground, scissor, and column lifts, with other associated catalog equipment)			
FL21A05	Gray Manufacturing	The most current, complete catalog along with associated catalog list pricing (covering mobile column lifts, wheel / service lifts, stands, with other associated catalog equipment)			
FL21A06	Hein-Werner	The most current, complete catalog along with associated catalog list pricing (covering jacks, lifts, stands, with other associated catalog equipment)			
FL21A07	Hunter	The most current, complete catalog along with associated catalog list pricing (covering 4-post, parallelogram, scissor, in ground, and power rack lifts, with other associated catalog equipment)			

FL21A08	Mohawk	The most current, complete catalog along with associated catalog list pricing (covering 2-post, 4-post, mobile, scissor, parallelogram, in-ground, specialty lift equipment, with other associated catalog equipment)			
FL21A09	Norco	The most current, complete catalog along with associated catalog list pricing (covering jacks, cranes, dollies, shop presses; with other associated catalog equipment)			
FL21A10	Omega Lift (Hein-Werner)	The most current, complete catalog along with associated catalog list pricing (covering jacks, lifts, stands, dollies, with other associated catalog equipment)			
FL21A11	OMER Lifts	The most current, complete catalog along with associated catalog list pricing (covering 4-post, scissor, mobile, parallelogram, etc., in light and heavy duty applications, with other associated catalog equipment)			
FL21A12	Pro-Lift (Hein-Werner)	The most current, complete catalog along with associated catalog list pricing (covering jacks, lifts, stands, with other associated catalog equipment)			
FL21A13	QSP (Quality Stainless Products)	The most current, complete catalog along with associated catalog list pricing (covering jacks, tire and wheel lifts, and stands, with other associated catalog equipment)			
FL21A14	Rotary Lift	The most current, complete "U.S. Light Duty" catalog along with associated catalog list pricing (covering low rise pad lifts, 2-Post asymmetrical and symmetrical lifts, 4-post alignment lifts, 4-post general service lifts, and single/twin post SmartLift in-ground lifts, with other associated catalog equipment)			
FL21A15	Rotary Lift	The most current, complete "U.S. Heavy Duty" catalog along with associated catalog list pricing (covering in-ground, parallelogram, hydraulic portable, two-post, four-post, and floor running/ suspended pit lifts, with other associated catalog equipment)			
FL21A16	Stertil-Koni	The most current, complete catalog along with associated catalog list pricing (covering 2-post, 4-post, mobile column, scissors, parallelogram, in-ground lifts, with other associated catalog equipment)			
B: Tire and Wheel Equipment					
FL21B01	Ammco (Hennessy Industries)	The most current, complete catalog along with associated catalog list pricing (covering brake lathe equipment, with other associated catalog equipment)			
FL21B02	ARI-Hetra	The most current, complete catalog along with associated catalog list pricing (covering tire changers, wheel balancers, brake lathes, with other associated catalog equipment)			
FL21B03	Coats (Hennessy Industries)	The most current, complete catalog along with associated catalog list pricing (covering balancing and tire changing equipment, with other associated catalog equipment)			

FL21B04	Hunter	The most current, complete catalog along with associated catalog list pricing (covering balancers, lathes, tire changers, and alignment machines, diagnostic equipment, with other associated catalog equipment)			
FL21B05	Pro-Cut	The most current, complete catalog along with associated catalog list pricing (covering brake lathe equipment, with other associated catalog equipment)			
FL21B06	Rotary Lift	The most current, complete catalog along with associated catalog list pricing (covering balancers, tire changers, and alignment machines, with other associated catalog equipment)			
C: Exhaust Extraction Equipment					
FL21C01	ARI-Hetra	The most current, complete catalog along with associated catalog list pricing (covering trucks, buses, car, and light truck exhaust extraction equipment, with other associated catalog equipment)			
FL21C02	Magnegrip (Clean Air Concepts)	The most current, complete catalog along with associated catalog list pricing (covering exhaust extraction equipment for fire stations, transit bus and fleet facilities, etc, with other associated catalog equipment)			
FL21C03	NS Corporation	<u>RoboXhaust</u> : complete, functional system; standard two vehicle configuration; single pendant, hand held remote control; robotic arm design (17'6" horizontal / 12' vertical limit); flexible silicon hose and scoop			
D: Lubrication and Fluid Management Equipment					
FL21D01	Duro Manufacturing	The most current, complete catalog along with associated catalog list pricing (covering hose reels for air/water/oil/electric applications, with other associated catalog equipment)			
FL21D02	Flo-Dynamics	The most current, complete catalog along with associated catalog list pricing (covering fuel, brake, transmission, power steering, and coolant fluid exchange equipment, with other associated catalog equipment)			
FL21D03	Lincoln Industrial	The most current, complete catalog along with associated catalog list pricing (covering shop lubrication equipment, including pumps, hose reels, grease guns, etc., with other associated catalog equipment)			
FL21D04	Mahle	The most current, complete catalog along with associated catalog list pricing (covering refrigerant and other fluid exchange equipment, with other associated catalog equipment)			
FL21D05	Motorvac	The most current, complete catalog along with associated catalog list pricing (covering fuel, brake, transmission, and coolant fluid exchange equipment, with other associated catalog equipment)			
FL21D06	Robinair	The most current, complete catalog along with associated catalog list pricing (covering refrigerant fluid exchange equipment, with other associated catalog equipment)			
E: Miscellaneous Catalogs					

FL21E01	Aaladin Cleaning Systems	The most current, complete catalog along with associated catalog list pricing (covering portable and stationary, cold and hot water, pressure washers, in gas, oil/diesel, electric, natural gas, and LP; plus recovery systems; part washers; water heaters, with other associated catalog equipment)			
FL21E02	Atlas-Copco	The most current, complete catalog along with associated catalog list pricing (covering all air compressors, portable, stationary, piston, rotary screw, etc., with other associated catalog equipment)			
FL21E03	Carolina Pride	The most current, complete catalog, along with associated catalog list pricing (covering self-serve car wash equipment, RO spot-free systems, prep stations, tunnel solutions, chemical delivery systems, with other associated catalog equipment)			
FL21E04	Champion Compressors	The most current, complete catalog along with associated catalog list pricing (covering all air compressors, with other associated catalog equipment)			
FL21E05	Landa Cleaning Systems	The most current, complete catalog along with associated catalog list pricing (covering portable and stationary cold and hot water pressure washers, in gas, oil/diesel, electric, natural gas, and LP, plus parts washers, water heaters, waste oil heaters, with other associated catalog equipment)			
FL21E06	Mattei Compressors	The most current, complete catalog along with associated catalog list pricing (covering all air compressors, with other associated catalog equipment)			
FL21E07	Saylor-Beall	The most current, complete catalog along with associated catalog list pricing (covering all industrial air compressors, with other associated catalog equipment)			
FL21E08	Steel Eagle	The most current, complete catalog along with associated catalog list pricing (covering both portable and stationary all-in-one cleaning/recovery systems and industrial reels - in gas, oil/diesel, electric, natural gas, and LP, with other associated catalog equipment)			
FL21E09	Water Maze	The most current, complete catalog along with associated catalog list pricing (covering hose reels, surface spinner cleaners, undercarriage cleaners, pressure washing / vacuum equipment, waste oil heaters, hose reels, with associated catalog equipment)			

F: Vehicle Wash (and Related) Systems

These base unit configurations shall include, unless noted, all standard and necessary factory components needed to make these complete, functional systems, priced with all standard manufacturer wash equipment components for basic operation, **such as standard operator controls, control valves, float switches rails, water and detergent pumps, brushes, et cetera**, but exclusive of freight. **This Form-D price shall be exclusive of additional site work, such as installation, demolition, additional plumbing and electrical work, et cetera - which Offeror shall price separately on Form-E (Reference language in this Invitation's Section-B). Offeror shall price each wash system as a complete equipment price (not a % discount). Offeror shall submit, for each line item system priced below, a detailed quote sheet showing all components included.**

FL21F01	Bitimec	<u>Model 626 EZ Single Brush System:</u> Battery powered wash bot Applications: large vehicles such as school and transit buses, coaches, RVs, trucks, trailers, and light railcars; Features: dual controls, centrally located traction wheel, 100% battery drive, brush-only inclination, stainless steel frame			
FL21F02	Interclean	<u>Centri-Spinner System:</u> Drive-through touchless style maintenance wash system; Applications: vehicles with up to 14' height, including cars, vans, pick-up trucks, buses, utility trucks; Features: one step detergent application arch; Centri-Spinner high pressure arch and under-chassis unit; high pressure rear spray arch; 75 hp pump; photo eyes, water tank, tire guards, slip plates, HMI graphic based OS panel.			
FL21F03	Interclean	<u>XJ-404 Transit System:</u> Drive-through 4-brush system, Applications: vehicles with up to 12' height, including transit buses, paratransit buses, and vans; Features: one-step detergent application; 4 counter rotating brushes with direct detergent injection (for front, sides and rear); underchassis spray bar; wheel wash manifolds; final rinse arch; 30 hp pump; tire guides, slip plates, photo eyes, water tank, HMI graphic based OS/panel.			
FL21F04	Interclean	<u>Ultra Gantry 3-Brush System:</u> Gantry style 3-brush system; Applications: transit buses, paratransit buses, vans, tractor trailers, box trucks and similar; Features: two side brushes for complete horizontal cleaning (sides, rear and front of vehicles); top brush detergent mixing/metering station and application arch; final rinse arch, tire guides, skid plates, water tanks, HMI graphic based OS/panel.			
FL21F05	Istobal	<u>Progress System:</u> Moving gantry, 2-brush standard automatic design wash system; Applications: standard vehicle wash height 12'8", including cars, light to heavy trucks, school buses, transit buses, coaches, etc; Features: amp sensing controlled brushes with overlap capability, guide rails, LED touch screen for programming and diagnostics, emergency stop, water tank, hybrid & Touch-Free wash capable when properly optioned. (Offeror shall include with Form-E options: all upgrade component pricing, including horizontal top brush, fixed side brushes, activation system, remote access system, stainless steel frame, water reclamation system, medium/high pressure systems, undercarriage rinse, frost protection, and additional wash heights available, et cetera)			

FL21F06	Istobal	<p><u>4HWD-300NA System:</u> Drive-through wash system; Applications: buses and some large vehicles up to 13'6"; Features: low pressure presoak, and rinse arch, safety and speed control system with photo cells, 4 wash brushes, wash activation pad (Offeror shall include with Form-E options: all upgrade component pricing, including water reclamation system, mitter curtain, stainless steel frame, activation system, undercarriage rinse, medium pressure, frost protection, heater, vacuum, et cetera)</p>			
FL21F07	Istobal	<p><u>M1 Rollover System:</u> moving gantry, Applications: vehicles up to 7', including cars and light duty trucks, vans, SUVs; Features: 3-brush standard automatic design with amp sensing technology, on-board chemical system with soap and wax delivery, 3-button activation box, treadle-less activation system, LED touch screen for programming and diagnostics (Offeror shall include with Form-E options: all upgrade component pricing, including water reclamation system, remote access system, activation system, undercarriage rinse, splash guards, additional chemical options, offboard chemical system, frost protection, heater, vacuum, et cetera)</p>			
FL21F08	Istobal	<p><u>Flex 5 Rollover System:</u> Three brush automatic car wash, treadle-free operation, with voice signaling for vehicle placement assistance placement; Applications: vehicles up to 7'6", including cars and light duty trucks, vans, SUVs; Features: photo-eye activation, driver's side LED vehicle positioning sign, protective yellow guide rails, hose/cable feed system with two wall mounting brackets and tray, <i>Link-It</i> closed cell soft foam brushes, electronically controlled amp-sensing system (with tilting system), Istobal venturi-based chemical delivery system, galvanized travel rails with shims and hardware, touch-screen technician command center, screen access for remote programming, diagnosis, and resetting (customer Internet access); Standard color ("Traffic White RAL9016") (Offeror shall include with Form-E options: all upgrade component pricing, including water reclamation system, activation system, undercarriage rinse, splash guards, additional chemical options, frost protection, heater, vacuum, et cetera)</p>			
FL21F09	Istobal	<p><u>Rotators System:</u> Drive-through touchless high-pressure wash system: Applications: irregular shaped commercial vehicles (not suitable for brush configurations), up to 13' 9" (waste trucks, tankers, dump trucks, stake trucks, etc.). Features: presoak / foaming chemical arch application, frost protection, photocell activation, integrated pumping system with low level safety protection, 100 micron filter</p>			

FL21F10	MacNeil	<p><u>45' Drive Thru Wash System:</u> Applications: vehicles up to 7', including light-duty trucks, vans; Features: guide rail, presoak arch, RS-680 Z-Frame Module (wrap-around brushes with top brush), rinse arch, Control Center, start/stop station (Offeror shall include with Form-E options: all upgrade component pricing, including water reclamation system, undercarriage rinse, heater, vacuum, et cetera)</p>			
FL21F11	MacNeil	<p><u>45' Drive Thru Wash System with Dryer:</u> Applications: vehicles up to 7', including light-duty trucks, vans; Features: guide rail, presoak arch, RS-680 Z-Frame Module (wrap-Around brushes with top brush), rinse/drying agent arch, Control Center, Tech 21 dryer with 30 HP fixed nozzle drying unit on Pro Build Arch, start/stop station (Offeror shall include with Form-E options: all upgrade component pricing, including water reclamation system, undercarriage rinse, heater, vacuum, et cetera)</p>			
FL21F12	NS Corporation	<p><u>ECO 5 Side-to Side Fleet Car Wash System:</u> Drive-through automatic wash system, Clearance: vehicles up to 96"; Features: 4 leg support structure; Clearance: 96"; Primary cleaning components: flex-a-round washers, rocker panel washers; oscillating side-to-side mitter; System includes: air hose activation; (1) pair wrap-a-round washers, (1) oscillating side-to-side mitter, (1) pair rocker panel washers; bypass chemical injection; driver-side utility connection; polished aluminum framework; 27-1/2 ft of curb rail; DIA-100 final rinse arch with electric eye activation; PVC solenoid and check valves</p>			
FL21F13	NS Corporation	<p><u>HPW-414 System:</u> Drive-through touchless, high pressure wash system; Clearance: 180"; Applications: car, light and heavy trucks and buses; Primary cleaning component: 10-spinner high pressure arch (235 GPM); System includes: 4" curb rail, 7" x 68'; stainless steel entry skid plates; (2) diffuse electronic eye activation system for detergent & spinner arches; single chemical applicator arch; detergent injection system (DIS-200); chemical metering pump; undercarriage spray, entrance and exit; high pressure arch; 1500-gallon storage tank, with level control switches; vehicle counter; electro-mechanical relays (offeror shall price digital/PLC option on Form-E)</p>			

FL21F14	NS Corporation	<p><u>SYS-3100 System:</u> Drive-through wash system; Clearance: 120"; Applications: transit, school, para-transit and mini buses; Primary cleaning components: polyethylene-lammscloth brush pelts, dual oscillating side to side top mitter curtains; System includes: 6-legged aluminum frame; 4" curb rail, stainless steel entry skid plates; 7" x 38"; brush package injection system; DEMA bypass loop, with chemical pump; electronic eye activation; wash and rinse; (1) pair wrap-a-round front, side, and rear sbrushes; variable density brush pelts, counter-oscillating side-to-side; automatic air retraction system; air retraction system for mirrors (filter, regulator, and lubricator (offeror shall price higher clearance options on Form-E)</p>			
FL21F15	NS Corporation	<p><u>5M-420 System:</u> Heavy-duty, drive-through wash system; Clearance: 120"; Applications: transit buses; System includes: (1) pair sectional wrap around brushes; (2) pairs maintenance free side brushes, breakaway feature; overhead oscillating lammscloth scrubber; detergent injection system; air retract system (offeror shall price higher clearance options on Form-E)</p>			
FL21F16	NS Corporation	<p><u>Nautica 4M-12 System:</u> 3-brush rollover gantry type wash system (washing elements on floor mounted tracks over stationary vehicle); Applications: cars, trucks, buses and tractor-trailers; Clearance: 138"; System includes: top follower brush for front/top/rear; set of side brushes; soft fiber brushes; 55" top brush; 36"-42" side brushes; air retract system (air compressor not included); detergent injection metering pump & container; cable carrier system for electrical/water/air supply lines; PLC control panel, pre-wired, gantry-mounted; manual override push-buttons & joystick override control; 22' tire guide rails; galvanized steel frame; overspray splash guards, sides & top 60' steel gantry running tracks</p>			
FL21F17	NS Corporation	<p><u>Super Chassis Blaster System:</u> High pressure, hot water chassis cleaning system; fully computerized with and programmable function and speed; Applications up to 40'; Low volume water design; System includes: inline water heater (5 GPM); oscillating spray nozzles (90°-110°); touch screen control panel; chemical injection pump; heavy-duty e-chain cable and hose carrier; stainless steel trolley tracks; permanently lubricated bearings.</p>			
FL21F18	PDQ	<p><u>Tandem ProTouch System:</u> Ultrasonic vehicle loading system; 2 Brush design; applications: vehicles up to 7', including cars and light duty trucks, vans, SUVs; foam side and top brushes, lube system, wax delivery (Offeror shall include with Form-E options: all upgrade component pricing, including water reclamation system, air pressure detailer, wheel scrubbers, dryer, high pressure top washer, ozone generator, vacuum, et cetera)</p>			

FL21F19	PDQ	<u>Surflite Light-Touch System</u> : Ultrasonic vehicle loading system; Available 3 Brush configuration; Applications: vehicles up to 7', including cars and light duty trucks, vans, SUVs; Features: foam side and top brushes, off-board low pressure pump panel, lube system, wax delivery (Offeror shall include with Form-E options: all upgrade component pricing, including water reclamation system, air pressure detailer, wheel scrubbers, dryer, high pressure top washer, ozone generator, vacuum, et cetera)			
FL21F20	PDQ	<u>Laserwash Vehicle Wash System</u> : Automatic touch-free wash system; Applications: vehicles up to 7', including cars, light-duty trucks, vans; Features: open-bay, non-guardrail, virtual treadle vehicle loading, soap-conditioner-rinse delivery, site networking (Offeror shall include with Form-E options: all upgrade component pricing, including water reclamation system, wheel scrubbers, ozone generator, vacuum, et cetera)			
FL21F21	Proto-Vest	<u>Windshear I Dryer</u> : Stand-alone drying system; Applicatins: standard vehicles (car, van, pickup trucks; Features: (1) 30 hp motor blower; Standard dimensions: 170" W x 120" H (Bidder shall include with Form-E options pricing: noise reduction package)			
FL21F22	Proto-Vest	<u>Windshear II Dryer</u> : Stand-alone drying system for standard vehicles (cars, vans, pickup trucks; Features: (2) 30 hp motor blowers; Standard dimensions: 187" W x 120" H (Bidder shall include with Form-E options pricing: noise reduction package)			
FL21F23	Proto-Vest	<u>Class 8 Large Truck Windshear II Dryer</u> : Stand-alone high efficiency drying system; Applications: LArger trucks (up to Class 8); Features: (2) 30 hp blowers; Standard dimensions: 204" W x 219" H (Bidder shall include with Form-E options pricing: noise reduction package)			
FL21F24	Proto-Vest	<u>Bus Windshear II Dryer</u> : Stand-alone high efficiency drying system; Applications: school and transit buses; Features: (2) 30 hp blowers; Standard dimensions: 204" W x 219" H (Bidder shall include with Form-E options pricing: noise reduction package)			
FL21F25	Whiting Systems	<u>SmartWash Supra Wash System</u> : Automatic three-brush roll-over type system (traveling gantry over standing vehicle on surface mounted tracks); selectable programs: front, roof, rear and sides; applications: cars, trucks, buses, tractor-trailers, trucks up to 13'6"; two side brushes, one top brush, and eleven rotating motor driven spinners; pre-soak, final rinse arch; photo eye activation/de-activation (Offeror shall include with Form-E options: all upgrade component pricing)			

FL21F26	Whiting Systems	<u>SmartWash Storm Wash System</u> : Automatic touch-free roll-over blaster system; applications: standard and irregular shaped cars and trucks up to 13'6"; side and top mounted high pressure nozzles; floor mounted gantry tracks (Offeror shall include with Form-E options: all upgrade component pricing)			
FL21F27	Whiting Systems	<u>Sprite Drive-Thru Fleet Washer System</u> : Two-step system (wash step, rinse step): fully automatic, with manual override; front, side, and rear washing; applications: heavy duty cleaning on large trucks and trailers and similarly dimensioned equipment up to 13'6"; infrared fiber optic beams, starters, and overloads (Offeror shall include with Form-E options: all upgrade component pricing)			
FL21F28	Whiting Systems	<u>Sprite Drive-Thru Fleet Washer System</u> : Single-step system (single wash-rinse design): fully automatic, with manual override; front, side, and rear washing. applications: heavy duty cleaning on large trucks and trailers and similarly dimensioned equipment up to 13'6"; infrared fiber optic beams, starters, and overloads (Offeror shall include with Form-E options: all upgrade component pricing)			
FL21F29	Whiting Systems	<u>SmartWash Super Scout System</u> : Fully automatic three-brush roll-over type system (traveling gantry over standing vehicle on surface mounted tracks); selectable programs: front, roof, rear and both sides; applications: cars and small trucks, buses, tractor-trailers, large trucks up to 13'6"; two side brushes, one top brush; pre-soak, final rinse arch; photo eye activation/de-activation (Offeror shall include with Form-E options: all upgrade component pricing)			
FL21F30	Whiting Systems	<u>SmartWash Scout System</u> : All-electric 3-brush roll-over system applications: standard size cars and light trucks, including buses, and larger trucks up to 12'; floor mounted tracks; two step wash-rinse design(Offeror shall include with bid options: (Offeror shall include with Form-E options: all upgrade component pricing, including 14' clearance option upgrade)			

G: GPS Tracking and Other Monitoring Solutions

GPS and video solutions shall be complete, turn-key pricing and shall include, on this Form-D: (1) **all hardware (including digital recorders and standard GPS in-vehicle transponder-sender unit** (on video systems: a camera \$/vehicle or \$/camera, et cetera) standard wiring, cabling, harnesses, etc., for a single vehicle base system application), and (2) associated, required standard "home office" software and mobile applications (Application Service Provider (ASP)/Single-Instance, Single-Tenant Legacy application and/or Software-as-a-Service (SaaS)). **Any required activation, service / monitoring, and maintenance fees shall be detailed and included as well on Form-D (such mandatory fees that are usually monthly in nature must be presented as a yearly figures to accommodate the HGAC purchase order system (one-time single PO, with associated single PO fee remittance to HGAC).** Options, such as multi-seat licenses, additional vehicle pricing (e.g. 2+, 5+, 10+ vehicles, et cetera, shall be priced on Form-E, along with all available options. **All bid responses shall include detailed descriptions of (and technical specifications for) all the equipment comprising their Form-D price.** As needed, Offeror may include attachments for additional Form-D pricing clarification / itemization. **Offeror shall include a separate quotation document detailing all the components, hardware, software, required fees / licensing that are included in the Base Unit system described and priced on this Form-D document as the "Base Unit" solution.**

FL21G01	FieldLogix	<p><u>GPS fleet tracking & workforce management software</u>; "black box" plug & play vehicle activity recorder/GPS sender unit and <i>Fieldlogix</i> software; applications: real-time GPS vehicle & equipment tracking; features: closest vehicle to landmark/address, driver behavior monitoring, aggressive driving monitoring, vehicle diagnostics (via OBD-II), check engine alerts, seat belt usage monitoring, green reports, maintenance reminders, landmark entry/exit tracking, driver scorecard, fleet benchmarks, restricted zone (geo-fence) alerts, county mileage tracking, device health monitoring, fuel fraud monitoring, vehicle breadcrumb trail, posted speed limit alerts, mileage tracking, application program interface/API (Offeror shall include pricing on Form-E for optional upgraded hardware, software modules, et cetera)</p>			
FL21G02	Geotab	<p><u>GPS fleet tracking package</u>: real-time GPS vehicle & equipment tracking, with "G09" plug & play vehicle telematics/GPS sending unit device for tracking and monitoring, and Geotab software; Features: closest vehicle to landmark/address routing, driver behavior monitoring, aggressive driving monitoring, vehicle diagnostics (via OBD-II), seat belt usage monitoring, fuel usage & IFTA reports, maintenance reminders, landmark entry/exit tracking, restricted zone (geo-fence) alerts, vehicle breadcrumb trail, posted speed limit alerts, mileage tracking, application program interface/API, wifi hotspot</p>			
FL21G03	Lytx	<p><u>Video Telematics, Driver Safety System</u>: turn-key fleet safety video tracking solution; machine vision/automated sensor monitoring design; Applications: driver safety improvement, vehicle collision reduction, and fuel consumption reduction; Features: SF300 event recorder, onboard, cloud-connected digital video recorder (DVR), sensors ((incorporated into SF300) for event recorder to capture critical data (accelerometers to detect speed, gyroscopes to detect motion), GPS to detect location, and software licensing for Lytx-hosted workspace (Offeror shall use Form-E to price multiple vehicle packages, additional software modules, installation, monitoring services, et cetera)</p>			
FL21G04	Routeware	<p><u>"Basic" solution</u>: per vehicle license, priced as a single vehicle; home office license; web based fleet management; cloud hosted; GPS; real-time; cellular (CDMA & GSM/GPRS); light duty vehicle applications; Xirgo <i>XT-2050C</i> GPS transponder-cellular modem (OBDII interface); home office software includes dashboards, reports, mapping, route playback, geofencing, breadcrumb trails; vehicle proximity to landmarks and addresses; Alerts & notifications include speeding, idling, engine on/off, mileage, time (Offeror shall include the Form-E options prices: differential upgrade price for GPS modem for heavy duty vehicle applications)</p>			

FL21G05	Routeware	<p><u>"Premium" solution:</u> per vehicle license, priced as a single vehicle; home office license; web based fleet management; operations efficiency; cloud hosted and onsite server options; inclusive of Basic solution features; GPS; real-time; cellular (CDMA & GSM/GPRS); light duty vehicle applications; Sierra Wireless <i>GX400</i> GPS transponder-cellular modem (OBDIII interface); touch screen computer options; driver records pickups, skips, extras, timers, comments; turn-by-turn directions; route based or work order based; home office software includes: dashboards, route management, work order management, alerts, driver messaging interface, route details, customer service, mapping, reporting; mapping functionality includes: bread crumb trails, route playback, geofencing, proximity to landmarks and addresses; alerts and notifications include speeding, idling, engine on/off, mileage, time, behind schedule, off route, timers (Offeror shall include the Form-E options prices: differential upgrade price for GPS modem for heavy duty vehicle applications).</p>			
FL21G06	Rubicon Global	<p><u>Smart City Fleet and Route Management Solution:</u> standard, automatic data upload, cloud-based solution; Features: smartphone or tablet in-cab monitoring; onboard plugin device (OBD port interface), GPS transponder, software (and phone app) licensing; software functionality includes: active vehicle status tracking and monitoring (idle time, stationary time, fuel consumption, engine status, fault code tracking, miles traveled, etc.), asset management (refuse bin condition, location flagging, etc.), route management (route progress, speeding and hard driving, automated service verifications, work order tracking, pre and post trip reports, etc.), data collection (pot holes, graffiti, vacant home, downed trees, etc.), navigation (turn-by-turn directions, navigation to disposal sites, etc.) (Offeror shall include the Form-E options prices: differential upgrade price for hardware enhancements beyond the standard offering including camera integration)</p>	Rubicon Global, LLC	\$190 monthly p/vehicle	
FL21G07	Track Star	<p><u>Track Star AVLS GPS Fleet Tracking & Management Solutions:</u> Cloud-based system, with Queclink GV500MAP OBD-II plugin GPS 4G LTE device; Features: 30 second position updates, 1 year historical data retention, live tracking, automatic alerts/notifications (geofence, speeding, idling, hard driving, etc.), extensive reporting capabilities, vehicle replay/breadcrumbs features, administrative controls</p>
