- 3.The variance is not contrary to the public interest, in that:
 - a. It does not allow applicants to impair the application of these regulations for:
 - i. Self-imposed hardships;
 - ii. Hardships based solely on financial considerations, convenience or inconvenience; or
 - iii. Conditions that are alleged to be "special," but that are actually common to many properties within the same zoning district.
 - b. The variance will not have a detrimental impact upon:
 - i. The current or future use of adjacent properties for purposes for which they are zoned;
 - ii. Public infrastructure or services; and
 - iii. Public health, safety, morals and general welfare of the community.
- 4.The degree of variance allowed from these Land Development Regulations is the least that is necessary to grant relief from the identified unnecessary hardship.
- 5.The variance shall not be used to circumvent other procedures and standards of these Land Development Regulations that could be used for the same or comparable effect (e.g., if alternative development patterns, alternative development standards, or other flexible measures in these regulations are available that would avoid or mitigate hardship without using a variance, then they must be used).
- 6.By granting the variance, the spirit of these Land Development Regulations is observed and substantial justice is done.

Explain how the variance is not contrary to the public interest.

Explain how the variance does not allow you to impair the application of these regulations for:

By granting the variance, is the spirit of the Land Development Regulations observed and substantial justice done?
