Let The Next Wave Of Progress Begin

First and foremost, I want to thank those that participated in the recent elections in Galveston, both for and against. Your voices have been heard.

With the passage of the street and drainage bonds the city will begin rapidly advancing all proposed projects, as well as, continuing with our normal pay as you go work. Throughout this process, we will do all we can to keep you updated on progress by providing timely updates. Absolute transparency is imperative.

In regard to the parks propositions on the ballot, the voters have also spoken and they wish to retain the parks for public use. I will be meeting with our Director of Parks & Recreation and Better Parks for Galveston to review plans for the parks in our system.

We are thankful for your confidence and humbled by your support. City staff will work diligently to fulfill our promises and keep the waves of progress in motion.

As we begin to roll out the projects that are funded by the bonds, you will see them move through three steps – design, bidding, and construction. At the May council meeting you will see 73rd Street from Heards to Ave N ½ and 45th Street from Broadway to Seawall on the consent agenda asking council to award the design contracts. We have five projects that have completed the design phase and are being prepped for bid. Those include: 26th Street from Ave N to Broadway, 29th Street from Church to Harborside, 33rd from Broadway to Harborside, 26th Street from Ave N to Broadway, Ave L from 62nd to 63rd Street. This is just the beginning of a busy five years of infrastructure improvements across the island.

We live in one of the greatest cities in our state, if not the nation. My staff and I are proud to serve the citizens and are ready to roll up our sleeves and work toward making it even better.

Brian Maxwell
City Manager

Public Works Compliments

- Mr. Dan Ivey from Commodore called to complement our Sanitation crews. He said we have the best crews he’s seen and they all have been extremely friendly. He wanted to call and let us know and would like the crews to know as well.

- Commendation for the City of Galveston Sanitation Dept.

4-2-17

To Whom it May Concern,

I have lived in a number of towns around the country. Never have I been so impressed with a city’s sanitation department. I would like to commend Ernest Wells crew #1457 in particular. They are always friendly and professional and do a great job. We are doing a renovation on an old house and have had more than the usual amount of trash. The heavy trash crew and the regular weekly trash crew both do a great job. Courteous and professional.

Thank you for all you do.

Public Works Compliments

• Mr. Hudson came right over to Seawall East, took one look, and called the big vacuum truck. In no time at all, the sewage was sucked out of the large drain pipe so you could actually see what was going on -- the backup was caused by towels from the hotel to the west of Seawall East. If Mr. Hudson had not been so kind and right-minded to come out Sunday morning to look at this, I don’t believe we would have ever discovered the cause of the entire backup and there would have been damage to the western units at Seawall East. We all (Seawall East Board of Directors and Officers, owners, and Etheredge Property Management, particularly Bill and I) want to commend Mr. Hudson for coming out early on Sunday morning (his reply: "It’s just my job") to view an issue that someone else in his department had said was not the City’s responsibility, and to have the knowledge and understanding to know that the only way the sewage overflow could be stopped was by using City equipment. We compared notes: we live near water, we all fish, we all eat seafood from Galveston Bay, and we are all conscientious people. I would propose that Mr. Hudson saved the day and the Bay -- in many ways.

• Hello miss Jenna, this is miss Yolanda, I just spoke with you a minute ago, the gentleman did come out in to the alley his name is Charlie and he was a wonderful person, he already call for a trash can to be picked up from the back of my back door in the alley. I want to thank you once again for all your help and the help of this wonderful gentleman, and I thank you all so very much, now I can get up there and clean up the yard in the back, thank you so much
