**Safety Captain Staffing**

When it becomes necessary to staff the Safety Captain position during vacation, sick leave or other temporary vacancy, the position will be filled. The Battalion Chief will determine who will fill this position.

Typically, one of the Captains assigned to Station #1 will get the assignment however, it may be necessary to either bring in another Captain or a Driver who is on an active Captain Promotional Eligibility list.

In the event there is not an active eligibility list, only promoted Captains will be assigned to this position.
