A MESSAGE FROM OUR CITY MANAGER

As you will see in the following pages, all of our departments are working hard to ensure operations are running smoothly. In the last month, we’ve processed more than 350 permits, responded to hundreds of emergency calls and moved forward on numerous projects. On Sept. 13, the Galveston City Council passed the City’s next fiscal year budget, which started Oct. 1. We were able to balance our budget and devote money toward capital improvements for the City without increasing the tax rate for residents. We completed the design work for the 8 Mile Road/Sunny Beach Sanitary System and the 29th Street improvement project. These projects will go out for bid in October, as well as the 45th and 25th street reconstruction projects and others you can read about in these pages. We started our Youth Afterschool Program activities, serving children across the island by offering homework tutoring, arts and crafts programs, guitar lessons and various sports.

September presented some challenges. We received a near record-breaking amount of rainfall during the month – more than 30 inches downtown – bringing drainage and flooding issues to the forefront. During those events, our public works emergency crews were working around the clock to find ways to best mitigate the flooding and place barriers to prevent water from getting into homes and businesses. On an ongoing basis, our crews are working to maintain the system and clear debris or other issues that may impede drainage.

Please take a moment to look through our report and see what the City has been working on and where our work will continue in October and November.

Sincerely,

Brian Maxwell, City Manager
