

# Review of Beach Access Points (1-41)

August 21, 2018

**Beach Access and Dune Protection Plan Review Ad Hoc Committee**

# Terminology

- **Public Beach**

- is any beach extending inland from the mean low tide line to the natural line of vegetation (LOV) bordering on the Gulf of Mexico.

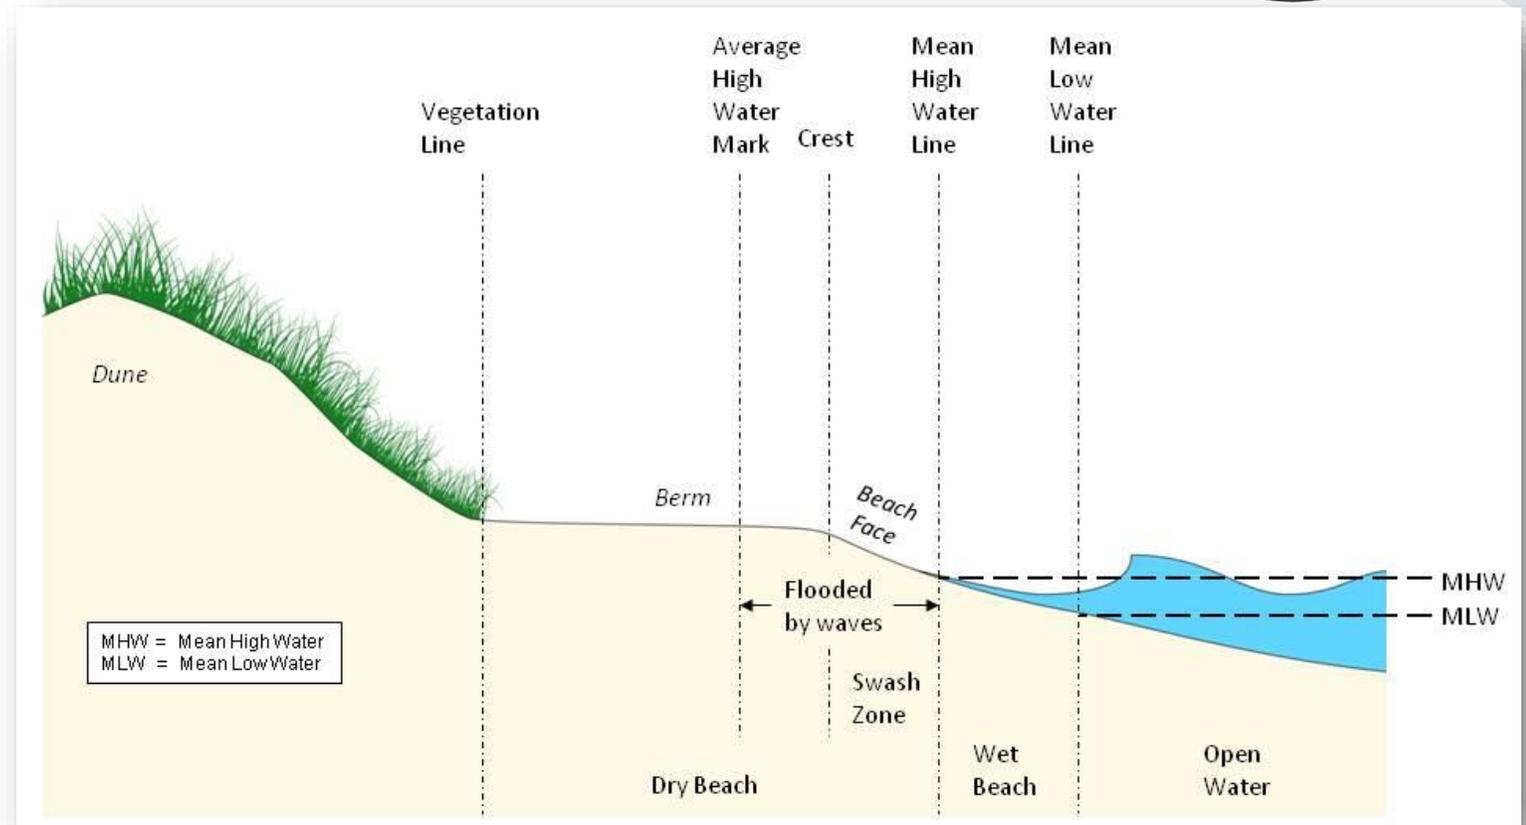

- Texas Natural Resources Code - NAT RES § 61.013(c).

- **Foreshore (wet beach)**

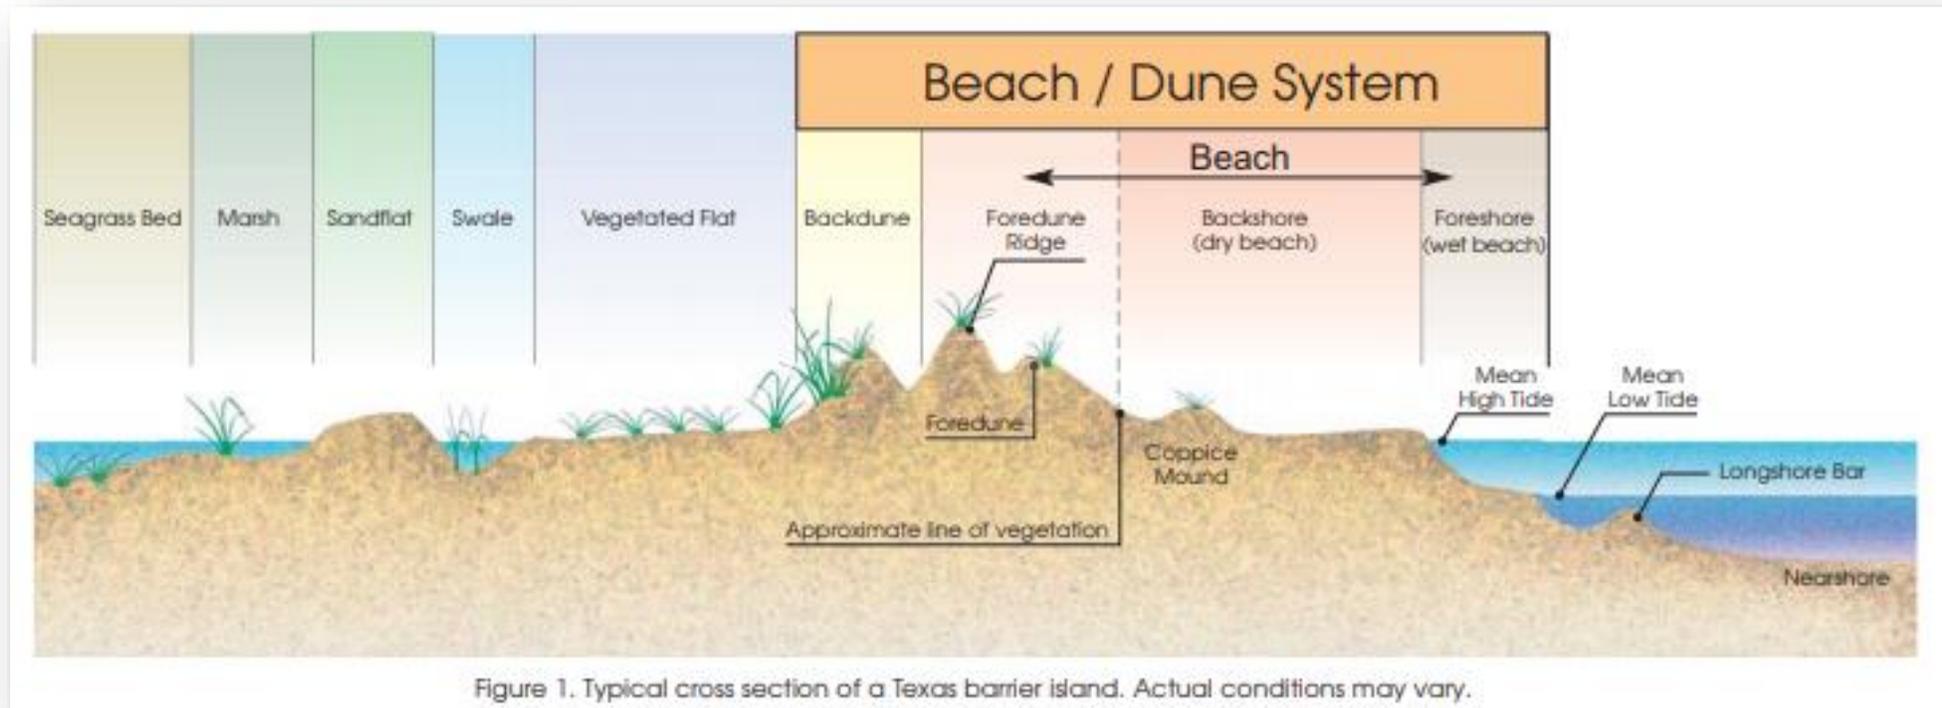

- the area affected by normal daily tides.

- **Backshore (dry beach)**

- is inundated only by storm tides and the higher spring tides; supplies sand to the dunes.

# Beach / Dune System

- *Coastal Dunes-Dune Protection and Improvement Manual for the Texas Gulf Coast, pg. 4.*

# Beach Access

## Texas Open Beaches Act

- *The public's common law right of free and unrestricted access to the “public beach,” which extends from the line of mean low tide to the line of vegetation on the shoreline bordering the Gulf of Mexico.*
- Chapter 61 of the Texas Natural Resources Code
- Passed by the Texas Legislature in 1959
- It is unlawful to prevent or impede access to or use of the public beach by erecting barriers or by posting signs declaring a beach closed to the public.

# Beach Access

- The City of Galveston shall regulate pedestrian and vehicular beach access, traffic and parking on the public beach only in a manner that preserves or enhances existing public access and use.
- 31 TAC, §15.7
- City of Galveston Dune and Beach Access Plan., pg. 17

# Beach Access Issues to Review

- **Beach Entrance and Exit Points**

- The public has the right to use and enjoy the public beach, including the right of free and unrestricted *ingress and egress* to and from the public beach.
- All access ways to the beach will be constructed so as to avoid breaches in the dune system and maintain the dune integrity.
  - *City of Galveston Dune Protection and Beach Access Plan, pg. 17*

- **Signage**

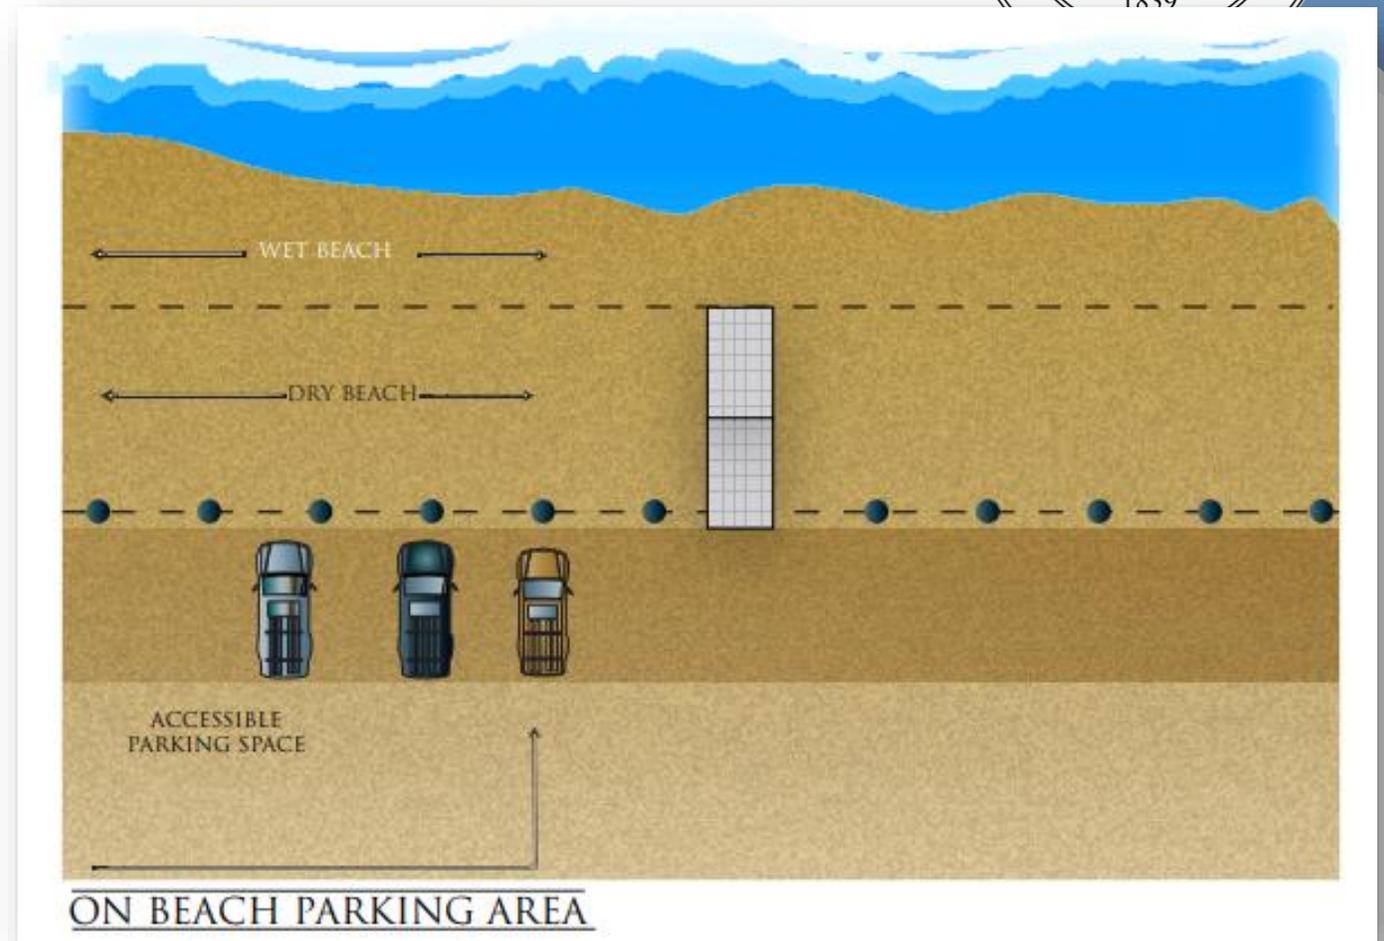

- Signs shall be displayed in a visible location identifying access and parking for the public beach.
  - *City of Galveston Dune Protection and Beach Access Plan, pg. 17*
- All beach access points that provide compliant access must be visible from the adjacent major roadway with visible signage.
  - *Texas Beach Accessibility Guide., pg. 13*

# Beach Access Issues to Review

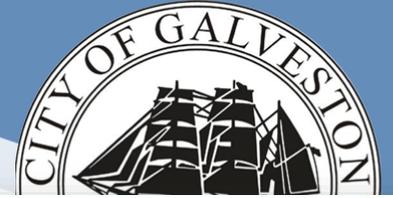

## • On-beach Parking

- The City may not restrict vehicular traffic from a public beach unless it preserves or enhances beach access for persons with disabilities.
  - *31 TAC 15.7(h)(5)*
- 1% of all public parking spaces provided for beach access must be designated as accessible parking.
- One in every eight accessible parking spaces, but never less than one, must be designated as a van accessible parking space.
- Accessible parking shall be located directly adjacent to the barriers that delineate the on-beach parking area from the pedestrian-only beach.
  - *Texas Beach Accessibility Guide, Pg. 11*

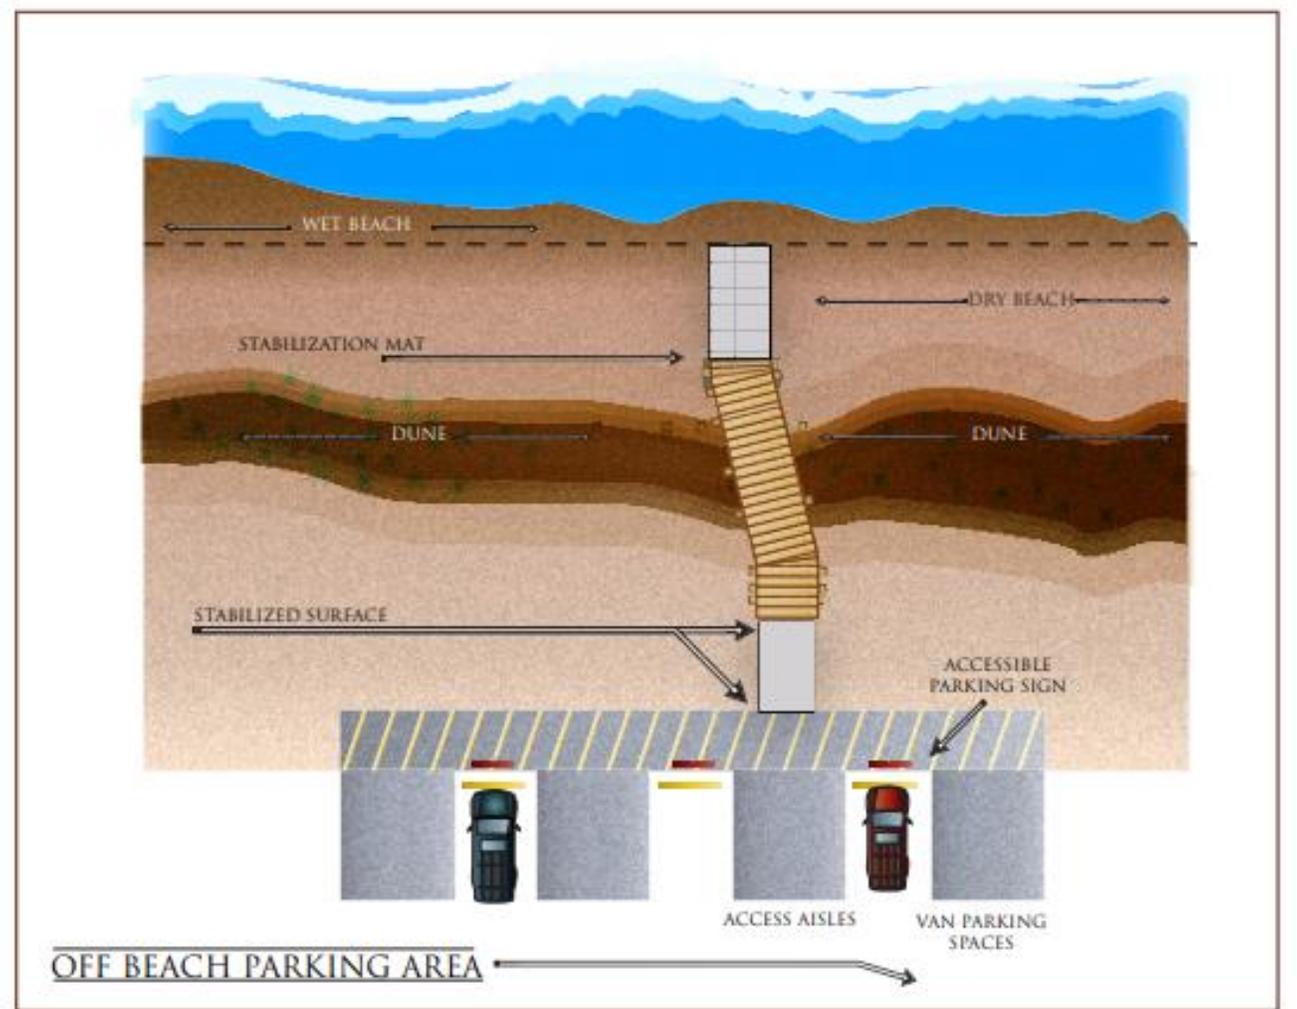

# Beach Access Issues to Review

## • Off-beach Parking

- Local governments may designate off-beach public parking to preserve public access to vehicular-restricted beaches or to enhance access to unrestricted vehicular beaches.
- Off-beach parking boundaries will be identified with signage and maintained on a continuous basis.
- Off-beach parking may be provided on public streets or in designated parking lots.
- To provide public access to the beach from off-beach parking areas, pedestrian pathways such as dune walkovers and footpaths must be constructed.
- Parking on or adjacent to the beach is adequate to accommodate one car for each 15 linear feet of beach restricted to vehicles.

# Beach Access Issues to Review

- **ADA Accessibility**

- Vehicular access is considered a primary means of access to most Texas beaches for all persons and is recognized as an acceptable option for providing access for people with disabilities.
- TX Beach Accessibility Guide, Pg. 3

- **Dune Walkovers / Pedestrian Pathways**

- Dune walkovers must be constructed to provide a smooth transition from the seaward and landward end to adjoining surfaces.
- Walkovers should commence landward of the back dunes and extend onto the beach beyond the foredune ridge and coppice mounds.

- **Distance from each access point**

- “(B) Where vehicles are prohibited from driving on and along the beach, ingress/egress access ways are no farther than ½ mile.”
  - TX Admin Code §15.7(h)(1)(B)
- If vehicles can drive on the beach, accessible parking areas and ingress/egress access routes should be provided at intervals no greater than 2 miles apart.

# Beach Access Points (1-10)

- **AP-1:** Apffel Park
- **AP-1(A):** Beachtown Development
- **AP-1(B):** Palisade Palms
- **AP-1(C):** West of the Islander East (Grand Beach Area)
